SOLUTIONS

10FT SHIPPING  
CONTAINER

# 10ft Shipping Container

10ft shipping containers, also referred to as mini shipping containers, are the ideal storage solution when space is limited within our range of shipping containers. These smaller units are commonly used for the safe onsite storage of furniture, equipment, parts and accessories.

## Key Features

- Wind and watertight
- Pest and vermin proof
- Wooden floors
- Lashing points at the floor and ceiling to secure your goods
- Secure and lockable via our lockbox system
- Approx 2.9m L x 2.5m W x 2.6m H (GP) or 2.9m H (HC)

## Options

A range of options are available for the 10ft shipping container.

- Lockbox for added security
- Steel floor
- GPS tracking system
- Transport/Shipping Certifications
- High Cube - additional height and cubic capacity
- Variety of Container Grades available - New or Used
- Ask us about container modifications including shelving, power and lighting

## Details

SCF's 10ft shipping containers are built from weathering carbon steel with superior fittings. Unlike lower quality substitution storage boxes which are made of cheap wood and covered with a flimsy weatherproof resistant material, these containers will keep your valuables safe inside, while the rain, wind and vermin stay outside, where they belong.

As a perfect alternative to a garden shed or garage, these units are the ideal storage solution for a range of items including but not limited to furniture, tools, automotive parts, clothes, excess stock, files and gardening equipment. Need to move it? No problems. These containers have forklift pockets or can be craned into a different position on site.

SCF also produce a high cube variant, which has an extra foot in the ceiling height giving it increased storage capacity.

Top:  
The 10ft  
container is  
perfect for tight  
spaces or small  
onsite storage  
needs.

Middle Left:  
While the  
container keeps  
the pests and  
vermin out, the  
lockbox will  
discourage cheeky  
thieves.

Middle Right:  
Easy access to  
your stuff with our  
strong, secure and  
easy to operate  
doors.
